6.20 CANCELLATION OR SUSPENSION OF THE EVENT DUE TO COVID-19 PANDEMIC OR FORCE MAJEURE

Organiser shall be entitled, at any time and at its sole discretion, to cancel and/or suspend the Race if the health emergency caused by Covid-19 persists, or for extraordinary and unexpected events beyond its control such as,

Competitors included in the Waiting List shall be subject to the provisions of Article 6.17; Competitors who have not been accepted shall be subject to the provisions of Article 6.8 of these SRR.

6.21 HEALTH EMERGENCY COVID-19 - FORCE MAJEURE

The Competitor, having taken note of the current exceptional situation, in Italy and in the world, due to COVID-19 pandemic and of the fact that it is currently not possible to predict the potential developments of the pandemic itself, nor of the possible emergency (or otherwise) measures which may from time to time be adopted by the competent authorities in relation to the aforementioned pandemic, with the execution of these SRR expressly accepts and agrees as follows:

- i. the Organiser has the right to postpone, cancel or suspend the Race should this be necessary or appropriate, prior or during the Race itself, due to reasons arising out from the COVID-19 pandemic or other and new extraordinary and unforeseeable events that make its organization impossible or excessively difficult;
- ii. to comply with any and all provisions, regulations, guidelines, specifications, etc. which may be issued from time to time by any Italian Authority, or even by the Organiser, regarding the COVID-19 pandemic and/or the prevention of related infections.

Article 7 - GENERAL OBLIGATIONS

7.1. Procedure for pre-race scrutineering, delivery of race numbers:

The administrative checks (delivery of race numbers) will be carried out based on the list of registered drivers (transmitted to the ACISport in the terms provided by the RSN), a copy of which must be given to each scrutineer in charge of scrutineering.

The correct compilation of the on-line race and calendar procedure allows one to enter all the information relating to the competitor-driver, thus allowing for registration in the list of entries.

7.1.1 ADMINISTRATIVE CHECKS

The procedures for carrying out the administrative checks may be totally or partially dematerialised according to the anti COVID regulations prepared by the ASN and national or territorial government Bodies.

Competitors and drivers must be present in person and with the accepted car, failure to do so will imply the impossibility of passing the checks and therefore of participating in the race, in the ways and means established in the programme. The Sports Inspectors and Road Traffic Police will undertake the following checks and formalities:

- a) checking of mandatory documents for competitors and drivers to be presented in original copy:
 - valid driving license, national and international;
 - sports licence of the nation of belonging or Italian daily licence, the latter for foreign crews only;
 - medical certificate;
 - valid competition car insurance;
 - competition car registration papers;
 - possible declaration of non-necessity of periodic revision of the vehicle according to the laws of the country of registration of the vehicle.
 - written authorization from competitor's N.S.A. if this does not belong to the EU / if this was not included in the registration form.
- b) hand out and apply the Personal Identification Device (CPI) described in Article 7.2 of these SR;
- c) sign, for acceptance, the check forms drawn up by the organiser and the Road Traffic Police;
- d) listening to or acknowledgement of the briefing by the organiser and the Clerk of the course on the methods and procedures of the race, signing for acceptance of the contents.

7.2 PERSONAL IDENTIFICATION DEVICE (CPI)

During the administrative checks, a Personal Identification Device (CPI) will be applied to each driver, in order to identify clearly the participant for the entire duration of the event.

The staff delegated by the organiser will be responsible for the application of this device and this cannot be refused by the driver.

The device cannot be ceded and cannot be removed until the end of the competition on penalty of exclusion from the race.

The exhibition of the (CPI) can be requested by Officials or by escorting Road Traffic Police, at any moment. The absence of the sticker can result in the exclusion of the crew and the car from the race.

In the case of breakage or loss of the (CPI) the driver must first notify it to the first Competitor Relations Officer he finds along the route.

- ### 7.2.1
- Only members of crews who have passed the pre-competition administrative checks can participate in the competition. No exchanges of authorised drivers are allowed between cars in the race.

Should persons other than those who have passed the pre-competition administrative checks be found on board a competition car during the race, except for the transport of an injured person, the car and its driver will immediately be excluded from the race; this also does not exclude further penalties to be decided at the discretion of the Stewards

7.3 COMPETITION NUMBER STICKERS

At the administrative checks, each competitor will receive a Sticker Kit consisting of:

- 3 round number holder stickers, with the competition number and the Organizer's advertising;
- 2 series of pre-spaced fluorescent competition numbers.

7.3.1 APPLYING THE COMPETITION STICKERS TO THE CARS

Cars must be presented for technical checks with all the kit stickers mentioned in Article 7.3 of these SR already applied, according to the following instructions:

- a) 1 round number holder sticker for each side of the competition car on the front doors (in cars with doors) or on the front sides (on cars without doors or with small doors);
- b) 1 round number holder sticker on the front bonnet of the competition car;
- c) 1 pre-spaced fluorescent number on the front windshield positioned to allow it to be seen when looking at the front part of the competition car;

- d) 1 pre-spaced fluorescent number on the rear window: should this not be possible the sticker must be applied on the rear boot in such a way as to allow it to be visible looking at the back of the competition car;

The guide layout is provided attached to these SRR, for the correct positioning of the competition numbers (Appendix 3).

Should it not be possible to apply all three of the round number holder stickers that are distributed, on the cars due to lack of space, it will be possible to apply only 2 stickers. In this case, the third sticker must be returned to the Organisation at the technical check, failure to do so could result in exclusion from the race.

7.3 SCRUTINEERING

After having passed all the administrative checks, the crews must submit the cars to scrutineering, in the ways and times stated in the programme. Failure to do so will lead to the cars being excluded from the race. Checks will be as follows:

- a) check of the correct positioning of the stickers in compliance with Articles 7.2. and 7.2.1 of these SR and check of the sound and light signals suitable for travelling on the road;
- b) The cars must have one of the following valid sports documents:
- Registro 1000 Miglia Certificate
 - ACI Historical Car Regularity Fiche;
 - HTP FIA or HTP ACI;
 - Certificate of registration in the ACI Storico Club Register;
 - FIVA-ASI Fiche Certificate of homologation or ASI identity;
 - Certificate of registration in the AAVS National Historic Register;
- Limited to international races registered in the FIA calendar and in the ACISport Calendar of national races with foreign participation (ENPEA);
- FIA regularity historical car pass;
 - FIVA identity card.

- c) placing of safety equipment as per Article 7.4 of these SR.

The configuration of the cars must comply with the criteria established by the ACI regulations, regardless of the sports document presented for admission to the races.

Foreign registered cars entered by foreign crews and without the documents listed in this article, can be admitted with a declaration of conformity to the sporting rules issued by the competitors themselves to the Organizers and countersigned by the same.

Failure to comply with even one of the above provisions is grounds for non-admission to the race, with the decision of the "Giudice Unico". Likewise, cars that do not provide sufficient guarantees of suitability and safety may not be admitted.

Cars with a "test" number plate are not allowed.

Competitors who do not show the documents requested above will not be admitted to the competition. After the administrative checks, the competitors will receive all the documents necessary to present themselves for scrutineering, including any information circulars and other instructions given by the Race Management.

7.5 SAFETY EQUIPMENT

The GPS tracker equipment supplied by the organiser must remain installed on the competition car for the entire duration of the race. The equipment must be returned to the CO/TC at the final arrival.

The device will be pre-installed during the scrutineering by company engineers (a strip of Velcro will be applied on the vehicle to fix the device) and all necessary information as well as a use manual for the device will be provided, as well as a release form for the use of data recorded on the device itself.

The “GPS Tracker” will track compliance to the route of the competition by the team and will also record the speed of the car. Recorded data will be available to the competition Directors and Stewards in order for them to take disciplinary action against the competitors who have broken the Road Safety Rules and the competition regulations, aside from any other provisions that could be taken by Police Officers who have detected an infringement of the law. Data could be made available following a request by the legal authorities.

In the case of loss or malfunction of the device, the competitor will notify this to the Competitor Relations Officer at every T.C. or those responsible for technical devices present at every lunch break and every arrival/start of each Leg.

In the case of withdrawal of a competitor along the route of the various Legs, the device will be returned to the Competitor Relations Officers or to the persons responsible for this in the Technical Support Convoy (Technical Car and Pace Car).

7.7 OBLIGATIONS OF COMPETITORS

Throughout the event, drivers must drive prudently and carefully, scrupulously respect the Italian Road Traffic Law and instructions given by the Clerk of the course and by Officials.

The Officials - those in Charge (Article 2 of these SR) positioned in the Technical Support convoy (teams in the Front Car, Pace Car and Technical Car), Road Traffic Police Officers will notify violations and offences of the Regulations, and the Instructions stated above.

In the case of infringements, the CoC will notify the “Giudice Unico” who will apply the following penalties:

- first offence: 1.000 penalty points;
- second offence: 12.000 penalty points.

Depending on the seriousness of the offence, the “Giudice Unico” will apply the penalties up to exclusion from the event, even after only one offense.

In each Leg, the CoC can undertake speed checks on all the cars in the race.

The Officials along the route as well as all the cars in the Technical Support convoy (Article 2 of these SR, teams in the Front Car, Pace Car and Technical Car) and Road Traffic Police Officers will also be responsible for supervising the conduct of the competitors and their service and team vehicles, notifying the Clerk of the course of any offence but without taking any independent decisions.

Also Road Traffic Police Officers and local Police Members in the relative areas can notify the CoC of any offences by competitors and their service and team vehicles.

Driving behaviour should always be prudent for oneself, for Officials, and especially for spectators.

Each competitor is always responsible also for the behaviour of their service and team vehicles, which must necessarily strictly observe the instructions given by Officials and Marshals and must follow the route envisaged in the Road book in some parts of the competition route. Failure to comply with this provision will result in sanctions against the relevant competitor, and may even lead to expulsion from the race, at the “Giudice Unico’s” discretion.

Article 8 – RUNNING OF THE COMPETITION

8.1 START

The cars will leave one at a time, from a stationary position with the engine running, one car departing every minute. Each car, once they have been given the “go”, will have to free the Departure area as quickly as possible.

Under the control of Officials, departure may take place by pushing the car, if it fails to leave on its own.

Competitors must not stop the competition car in the control areas (between the areas signalling the Start and End areas), exception being made for the check areas where the authorisation stamp will be printed by the Officials, reversing, changing direction, opening doors and in any way hindering the other teams will lead to the application of the penalty as stated in Appendix 4 of these SR.

Drivers must keep to the Official Times stated in the Itinerary Table. No restrictions will be imposed on them as regards the use of time recording equipment. The same may be synchronized with the clock placed at the start of each Leg, without direct connection to the said clock.

Any defect in detection of times, caused by any failure or malfunction of the equipment, will result, for the said checks, in the application of the average to each competitor and/or the annulment of the checks themselves for all competitors.

The organisers will state in the Road book, this will also be indicated on site, a straight stretch of road with measurements, used as the measured base in the preparation of the Road book, and competitors can verify this before the race.

8.2 STARTING ORDER

8.2.1 Starting order of Leg 1

The starting order of Leg 1 will be completed taking into account the assigned race numbers (see Art. 4.4).

8.2.2 Starting order of Legs 2, 3 and 4

The starting orders of Legs 2, 3 and 4 will be completed taking into account the absolute ranking established at the end of the previous leg, net of the coefficients of the cars.

8.3 TIME CONTROLS (CO/TC)

The purpose of the Time Control (CO/TC) is to outline the areas in which the route of the competition is divided, in order to regulate the conduct of the same and to make sure the average speed is respected.

Each competitor must be measured on the minute (e.g. for transit time 14:01 it will be possible to transit without penalty from 14:01:00 to 14:01:59).

The excesses as regards the ideal times established will determine the classification.

Penalties for delays and early arrivals at a CO/TC are those stated in Appendix 4 of these SR.

Delays and early arrivals at a CO/TC must not be caught up in the next CO/TC. Teams must leave the “check area” free for transit. They are authorised to enter this area on board their car, in the minute preceding the ideal one for transit, and remain in the area for the time strictly necessary to record the transit time.

When the time is being read, the car must be inside the time reading area. During reading operations, at least one member of the team must be on board the competition car.

The time used for the reading operation is not neutralised in any way. The reading is taken at the moment in which one member of the team hands over the Time Card to the Time-keeper.

In the case where competition cars that are late or in advance of their ideal times transit through the CO/TC in the minute pertaining to cars on time, the Time-keeper will make a note, on the Time Card of the team that is late or in advance, of the real transit time, which corresponds to the start of the next sector, giving precedence, in the marking operations, to the team with the less delay on the ideal transit time.

All the CO/TCs will be appropriately marked with signs in compliance with the examples attached to these SR (Appendix 5).

Vehicles transiting through an CO/TC in the opposite direction or a direction other than the one decided by the organiser will be excluded from the race.

8.4 TIME TRIALS (PC/TT)

Time Trials (PC/TT) are those timed areas of the route, between two consecutive readings where the drivers must keep to a set time indicated in the Itinerary Table and in the Time Card.

The PC/TT readings will be carried out with a photocell; the reading equipment will be positioned at the height established by the ACI Sport RDS. At the reading line a red cord will be laid out, having a diameter of 8/12 mm, which identifies the reading line, a line that connects the photocell and the reflector element.

Readings will be done at 1/100th of a second without any tolerance. Differences in the ideal time will, as for the differences read at CO/TC, be used in determining the classification.

PC/TT will be undertaken with departure read at free entrance; the driver will be able to choose freely the start of the PC, nonetheless within approx. 5 seconds from the "all clear" given by the Marshals and/or the Timekeeper in charge.

Various consecutive PC/TTs will be envisaged (interconnected), where the time for passing to the final reading of the previous PC/TT will be the start time of the next PC/TT, and so forth.

For PC/TT located in equipped areas or temporary circuits, competition tracks, kart-racing tracks, and for PC/TTs with lengths less than 300m, an appropriate map will be attached with the Road Book.

All PC/TTs will be properly marked both at the start and at the end, with signs in compliance with the examples attached to these SR (Appendix 5).

In the area of the route between the yellow sign and the beige sign showing the start and end of the measuring area, cars are not allowed to park, stop or open the doors. Should any cars stop in this measuring area due to a breakdown, they must be immediately removed according to the instructions given by the competition official, on penalty of exclusion.

In the stretch of route between the yellow sign at the beginning and the beige sign at the end of the reading area, access is also forbidden to the drivers and navigators who arrive in the control area before their transit time.

No complaint is allowed for any obstacles, difficulties or impediments that may occur in the distance covered during the PC/TT: each competitor must overcome them with their own means and abilities, while respecting the rules of the Highway Code of the countries crossed.

In the case of absence of a reading by a competitor, or even the absence of a result by one or more PC/TT, irrespective of the reason for this, the competitor will always be assigned a time relating to the missing PC/TT as resulting from the average PC/TT actually clocked by the said competitor in the Laps where the PC/TT are missing. The request will be made at the end of the Lap under consideration.

8.6 AVERAGE TRIALS (PM/AT)

PM/AT are those stretches of the route in which the drivers must maintain a predetermined hourly average, indicated in the TDT and in the Time Card: any difference, for early or late arrival, with respect to the ideal transit time on the secret finish lines set in these Trials will result in a penalty as provided for in Attachment 4.

The Road book will indicate the beginning and end place of each PM/AT. In the sector between the beginning and the end of the PM/AT, the average is measured in one or more points not known by the driver: the TDT will indicate the number of measurements envisaged for each PM/AT. Up to 5 detections can be envisaged for each PM/AT.

The transit time will be measured to the second, rounded down, by the GPS-Tracking equipment installed during the pre-race checks.

8.6.1 START OF AVERAGE TRIALS (PM/AT)

The start of the PM/AT will be "free start".

Each PM/AT start will consist of two stations described in the RB, located at a distance of between 40 and 100 metres from each other.

The first station, manned by route Marshals with the task of facilitating and regulating the departures of the cars, will correspond to a sign with a yellow background, with a hand-held flag. The Marshals in charge will not record the time of passage of the cars on the Competitors' Time Card.

The second station, created to allow the best accuracy of the timing function of the detection equipment, will not be manned by route Marshals and will be indicated by a sign with a red background, with a hand-held flag.

Once the competitor has received a "go-ahead" signal from the Marshals of the first station, he must proceed immediately, without stopping, towards the second station and take the actual start for the PM/AT from the Zero space/Zero time line corresponding to the station itself. In correspondence with this line, the competitor must start counting the space and time in order to respect the average assigned for each PM/AT.

In order to allow the competitor to reach the ideal average, no surveys will be envisaged in the first kilometre of each Trial.

8.7 PASSAGE CONTROLS (CT/PC)

The purpose of the Passage Controls (CT/PC) is to check the strict adherence to the established route.

The opening and closing times of the CT/PC will be notified by the Clerk of the course Bulletin. At the CT/PCs, drivers must stop the cars in order for the check stamp or "all clear" stamp to be printed in the relative area of the Time Card. The absence of this stamp will mean exclusion.

All the CT/PC areas will be properly marked with signs in compliance with the examples attached to these SR (Appendix 5).

Vehicles transiting through a CT/PC area in the opposite direction or one other than the one decided by the Organiser will be excluded from the race.

8.8 TYRES - SNOW CHAINS

For the entire duration of the race it is mandatory to use winter tyres or M+S and to have chains aboard the cars.

Article 9 - MAXIMUM LATENESS

A crew will be over the maximum lateness:

- if it transits through a Time Control (CO/TC) with more than 15 minutes delay.
- if it accumulates delays through various Time Controls totalling more than 30 minutes delay.

The opening and closing times of the Time Trials (PC/TT), the Average Trials (PM / AT) and of the Print Checks (CT /CP) will be notified through a Clerk of the course Bulletin.

***Ai Controlli Orari NON SEGUITI da Start Prova Cronometrata**

Le vetture sono autorizzate ad entrare nella zona di controllo (tra il cartello giallo e quello rosso di controllo) nel minuto che precede il loro minuto teorico di transito (solo se la zona è già stata liberata dalle vetture che precedono) oppure nel loro minuto teorico di transito e devono consegnare la tabella di marcia al cronometrista, per l'annotazione dell'orario di transito. I membri dell'equipaggio sono autorizzati a rimanere a bordo della vettura.

****Ai Controlli Timbro**

I membri dell'equipaggio devono rimanere a bordo della vettura e consegnare al commissario la tabella di marcia, per l'apposizione del timbro, senza iscrizione dell'orario di transito; la sosta nella zona deve essere limitata all'operazione di timbratura.

*****Nelle Prove Cronometrate**

Tra il cartello giallo di inizio ed il cartello beige di fine zona controllo è vietato l'arresto (fermo vettura/fermo ruote) e la sosta della vettura.

***At the Time Controls NOT FOLLOWED by Start Time Trials**

The cars are authorized to enter the control area (between the yellow and red control sign) in the minute preceding their theoretical transit minute (only if the area has already been freed from the cars ahead) or during their theoretical transit minute and must hand in the time card to the timekeeper, in order for him to note down the transit time. Crew members are allowed to remain on board the car.

****During the Time Trials**

Between the yellow sign at the beginning and the beige sign at the end of the control area, it is forbidden to stop (vehicle stopped/wheels stopped) and park the car.

*****At the Stamp Controls**

The crew members must remain on board the car and hand in the time card to the Marshal, where he will put the stamp, without inscription of the transit time; parking in the area must be limited only to the stamping operation.
