7.1. Procedure for pre-race check-in, administrative checks and delivery of materials:

The procedures for carrying out the administrative checks may be totally or partially dematerialised according to the anti COVID regulations prepared by the ASN and national or territorial government Bodies.

Competitors and drivers must be present in person and with the accepted car, failure to do so will imply the impossibility of passing the checks and therefore of participating in the race, in the ways and means established in the programme. The Sports Inspectors and Road Traffic Police will undertake the following checks and formalities:

- a) checking of mandatory documents for competitors and drivers to be presented in original copy:
 - valid driving license, national and international;

country of registration of the vehicle.

- b) hand out and apply the Personal Identification Device (CPI) described in Article 7.2 of these SR;
- c) acknowledgement of the briefing by the organiser and the Clerk of the course.

7.2 PERSONAL IDENTIFICATION DEVICE (CPI)

During the administrative checks, a Personal Identification Device (CPI) will be handed out to each driver, in order to identify clearly the participant for the entire duration of the event.

The staff delegated by the organiser will be responsible for the application of this device and this cannot be refused by the driver.

The device cannot be ceded and cannot be removed until the end of the competition on penalty of exclusion from the race.

The exhibition of the (CPI) can be requested by Officials or by escorting Road Traffic Police, at any moment. The absence of the sticker can result in the exclusion of the crew and the car from the race.

In the case of breakage or loss of the (CPI) the driver must first notify it to the first Competitor Relations Officer he finds along the route.

7.2.1 Only members of crews who have passed the pre-competition administrative checks can participate in the competition. No exchanges of authorised drivers are allowed between cars in the race.

Should persons other than those who have passed the pre-competition administrative checks be found on board a competition car during the race, except for the transport of an injured person, the car and its driver will immediately be excluded from the race; this also does not exclude further penalties to be decided at the discretion of the Stewards.

7.3 COMPETITION NUMBER STICKERS

At the administrative checks, each competitor will receive a Sticker Kit consisting of:

- 3 round number holder stickers, with the competition number and the Organizer's advertising;
- 2 series of pre-spaced fluorescent competition numbers.

7.3.1 APPLYING THE COMPETITION STICKERS TO THE CARS

Cars must be presented for technical checks with all the kit stickers mentioned in Article 7.3 of these SR already applied, according to the following instructions:

- c) 1 pre-spaced fluorescent number on the front windshield positioned to allow it to be seen when looking at the front part of the competition car;
- d) 1 pre-spaced fluorescent number on the rear window: should this not be possible the sticker must be applied on the rear boot in such a way as to allow it to be visible looking at the back of the competition car;

The guide layout is provided attached to these SRR, for the correct positioning of the competition numbers (Appendix 3).

Should it not be possible to apply all three of the round number holder stickers that are distributed, on the cars due to lack of space, it will be possible to apply only 2 stickers. In this case, the third sticker must be returned to the Organisation at the technical check, failure to do so could result in exclusion from the race.

7.4 SCRUTINEERING

After having passed all the administrative checks, the crews must submit the cars to scrutineering, in the ways and times stated in the programme. Failure to do so will lead to the cars being excluded from the race. Checks will be as follows:

- a) check of the correct positioning of the stickers in compliance with Articles 7.3. and 7.3.1 of these SR;

7.5 OBLIGATIONS OF COMPETITORS – RULES OF CONDUCT

Given the current regulations, to participate in the competition, each driver must be in possession of a Reinforced Green Pass (so-called Super Green Pass). In the event that this document lapses during the event, nothing will be owed by the organizer and the driver will have to leave the event, as required by the Federation's COVID Protocol attached to these SR.

Throughout the event, drivers must drive prudently and carefully, scrupulously respect the Italian Road Traffic Law and instructions given by the Clerk of the course and by Officials.

The Officials - those in Charge (Article 2 of these SR) positioned in the Technical Support convoy (teams in the Front Car, Pace Car and Technical Car), Road Traffic Police Officers will notify violations and offences of the Regulations, and the Instructions stated above.

In the case of infringements, the CoC will notify the “Giudice Unico” who will apply the following penalties:

- first offence: 1.000 penalty points;
- second offence: 12.000 penalty points.

Depending on the seriousness of the offence, the “Giudice Unico” will apply the penalties up to exclusion from the event, even after only one offense.

In each Leg, the CoC can undertake speed checks on all the cars in the race.

The Officials along the route as well as all the cars in the Technical Support convoy (Article 2 of these SR, teams in the Front Car, Pace Car and Technical Car) and Road Traffic Police Officers will also be responsible for supervising the conduct of the competitors and their service and team vehicles, notifying the Clerk of the course of any offence but without taking any independent decisions.

Also Road Traffic Police Officers and local Police Members in the relative areas can notify the CoC of any offences by competitors and their service and team vehicles.

Driving behaviour should always be prudent for oneself, for Officials, and especially for spectators.

Each competitor is always responsible also for the behaviour of their service and team vehicles, which must necessarily strictly observe the instructions given by Officials and Marshals and must follow the route envisaged in the Road book in some parts of the competition route. Failure to comply with this provision will result in sanctions against the relevant competitor, and may even lead to expulsion from the race, at the “Giudice Unico’s” discretion.

Article 8 – REGROUPING

Not foreseen

Article 9 – RUNNING OF THE COMPETITION – MAXIMUM LATENESS

9.1 START

The cars will leave one at a time, from a stationary position with the engine running, one car departing every minute. Each car, once they have been given the “go”, will have to free the Departure area as quickly as possible.

Under the control of Officials, departure may take place by pushing the car, if it fails to leave on its own.

Competitors must not stop the competition car in the control areas (between the areas signalling the Start and End areas), exception being made for the check areas where the authorisation stamp will be printed by the Officials, reversing, changing direction, opening doors and in any way hindering the other teams will lead to the application of the penalty as stated in Appendix 4 of these SR.

Drivers must keep to the Official Times stated in the Itinerary Table. No restrictions will be imposed on them as regards the use of time recording equipment. The same may be synchronized with the clock placed at the start of each Leg, without direct connection to the said clock.

Any defect in detection of times, caused by any failure or malfunction of the equipment, will result, for the said checks, in the application of the average to each competitor and/or the annulment of the checks themselves for all competitors.

The organisers will state in the Road book, this will also be indicated on site, a straight stretch of road with measurements, used as the measured base in the preparation of the Road book, and competitors can verify this before the race.

8.3 TIME CONTROLS (CO/TC)

The purpose of the Time Control (CO/TC) is to outline the areas in which the route of the competition is divided, in order to regulate the conduct of the same and to make sure the average speed is respected.

Each competitor must be measured on the minute (e.g. for transit time 14:01 it will be possible to transit without penalty from 14:01:00 to 14:01:59).

The excesses as regards the ideal times established will determine the classification.

Penalties for delays and early arrivals at a CO/TC are those stated in Appendix 4 of these SR.

Delays and early arrivals at a CO/TC must not be caught up in the next CO/TC. Teams must leave the “check area” free for transit. They are authorised to enter this area on board their car, in the minute preceding the ideal one for transit, and remain in the area for the time strictly necessary to record the transit time.

When the time is being read, the car must be inside the time reading area. During reading operations, at least one member of the team must be on board the competition car.

The time used for the reading operation is not neutralised in any way. The reading is taken at the moment in which one member of the team hands over the Time Card to the Time-keeper.

In the case where competition cars that are late or in advance of their ideal times transit through the CO/TC in the minute pertaining to cars on time, the Time-keeper will make a note, on the Time Card of the team that is late or in advance, of the real transit time, which corresponds to the start of the next sector, giving precedence, in the marking operations, to the team with the less delay on the ideal transit time.

All the CO/TCs will be appropriately marked with signs in compliance with the examples attached to these SR (Appendix 5).

Vehicles transiting through an CO/TC in the opposite direction or a direction other than the one decided by the organiser will be excluded from the race.

9.3 TIME TRIALS (PC/TT)

Time Trials (PC/TT) are those timed areas of the route, between two consecutive readings where the drivers must keep to a set time indicated in the Itinerary Table and in the Time Card.

The PC/TT readings will be carried out with a pressure switch.

Readings will be done at 1/100th of a second without any tolerance. Differences in the ideal time will, as for the differences read at CO/TC, be used in determining the classification.

PC/TT will be undertaken with departure read at free entrance; the driver will be able to choose freely the start of the PC, nonetheless within approx. 5 seconds from the “all clear” given by the Marshals and/or the Timekeeper in charge.

Various consecutive PC/TTs will be envisaged (interconnected), where the time for passing to the final reading of the previous PC/TT will be the start time of the next PC/TT, and so forth.

For PC/TT located in equipped areas or temporary circuits, competition tracks, kart-racing tracks, and for PC/TTs with lengths less than 300m, an appropriate map will be attached with the Road Book.

All PC/TTs will be properly marked both at the start and at the end, with signs in compliance with the examples attached to these SR (Appendix 5).

In the area of the route between the yellow sign and the beige sign showing the start and end of the measuring area, cars are not allowed to park, stop or open the doors. Should any cars stop in this measuring area due to a breakdown, they must be immediately removed according to the instructions given by the competition official, on penalty of exclusion.

In the stretch of route between the yellow sign at the beginning and the beige sign at the end of the reading area, access is also forbidden to the drivers and navigators who arrive in the control area before their transit time.

No complaint is allowed for any obstacles, difficulties or impediments that may occur in the distance covered during the PC/TT: each competitor must overcome them with their own means and abilities, while respecting the rules of the Highway Code of the countries crossed.

In the case of absence of a reading by a competitor, or even the absence of a result by one or more PC/TT, irrespective of the reason for this, the competitor will always be assigned a time relating to the missing PC/TT as resulting from the average PC/TT actually clocked by the said competitor in the Laps where the PC/TT are missing. The request will be made at the end of the Lap under consideration.

9.4 PASSAGE CONTROLS (CT/PC)

The purpose of the Passage Controls (CT/PC) is to check the strict adherence to the established route.

The opening and closing times of the CT/PC will be notified by the Clerk of the course Bulletin. At the CT/PCs, drivers must stop the cars in order for the check stamp or “all clear” stamp to be printed in the relative area of the Time Card. The absence of this stamp will mean exclusion.

All the CT/PC areas will be properly marked with signs in compliance with the examples attached to these SR (Appendix 5).

Vehicles transiting through a CT/PC area in the opposite direction or one other than the one decided by the Organiser will be excluded from the race.

9.5 MAXIMUM LATENESS

A crew will be over the maximum lateness:

- if it transits through a Time Control (CO/TC) with more than 15 minutes delay.
- if it accumulates delays through various Time Controls totalling more than 30 minutes delay.

The opening and closing times of the Time Trials (PC/TT) and of the Print Checks (CT /CP) will be notified through a Clerk of the course Bulletin.

- a. Overall;
- b. Category (art. 4.2.1);
- c. Class (art. 4.2.2);
- d. Female crews;

9.2 COMPILATION AND PUBLICATION OF RESULTS

The classifications will be drawn up based on the penalties incurred by each crew in the PC/TT and in the PM/AT, in the CO/TC and calculated based on the coefficient assigned to each car added to any penalties listed in art. 16.

The coefficient assigned to each car is calculated by applying the following criterion: taking the year of manufacture of the car indicated on the sports documents of the car itself, the number of hundreds is removed and a comma is inserted in its place.

(Eg.: production year 1939 Coeff.: 1,39 Penalty hypothesis: 500 points Score: $500 \times 1,39 = 695$) (Eg.: production year 2005 Coeff.: 2,05 Penalty hypothesis: 500 points Score: $500 \times 2,05 = 1,025$)

The final sum of all the penalties obtained by each competitor is then multiplied by the assigned coefficient.

The crew that obtains the lowest number of penalties, multiplied by the relative coefficient, will be declared the winner.

In case of ties in the final classification, the best finish will be assigned to the crew with the best result net of the coefficient, in case of further ties, the best finish will be assigned to the crew with the oldest car, in case of further ties, the best finish will be attributed to the crew with the best placement in the first 10 PC/TT carried out on Thursday, net of the coefficient.
