

1000 Miglia s.r.l., the exclusive promoter of the historical motorsport event known as the “1000 Miglia” (the “Event”), following some reports received and having found misleading communications disseminated on various media by the company Woodham Mortimer Limited (“WM”), deems necessary to provide some clarifications on its relationship with WM and on the events promoted by WM with regard to the Event in association with the “*J.D Classics*” brand.

As of 2019 until the 2022 edition of the Event, WM has been a partner of the Event under regular sponsorship contracts. Unfortunately, following repeated breaches of contract by WM during the year 2022, 1000 Miglia had to terminate the existing contract with WM and, therefore, at present, the latter is not a partner of the 2023 edition of the Event, no “guaranteed places” were assigned to it and has no right to associate its name and activity with the Event.

Consequently, 1000 Miglia has warned WM not to continue any association between it and the Event, as well as initiated legal proceedings concerning WM’s breach of the terminated contract, without prejudice to the right to pursue any further initiatives in order to protect its image and intellectual property rights and, in general, to stop unlawful behaviour under an unfair competition perspective.
